

Kazan IT-Park & Allied Digital Services Ltd. sign a Memorandum of Understanding

November 19, 2014

Allied Digital and Kazan IT- Park signed a Memorandum of Understanding in Mumbai. The signing ceremony was attended by Mr. Rustam Minnikhanov - President of the Republic of Tatarstan, Mr. Roman Shaikhutdinov - Deputy Prime Minister and Minister of Information and Communication, Mr. Nitin Shah- Chairman and Managing Director, Mr. Prakash Shah, Executive Director, Mr. Jawahar Ali, CEO ISG group and Mr. Sanjiv Patki, COO from Allied Digital.

Anton Grachev, Director of Kazan - IT Parksaid while signing the agreement – “This is one of the elements of the integration process of an IT park in the international scientific and technological environment that we started this year. Besides the fact that we have entered into International Association of Science and Technology Parks, we started cooperation with Technopark Hoa Lac (Vietnam), explored opportunities with Chinese Technology Park and now with Allied Digital –A very strong partner for IT Park in India. In turn, the IT Park is an important strategic partner for Allied Digital in Russia.”

Data Center in Kazan IT Park is certified under the international standard TIER III Uptime Institute. By the end of next year Kazan – IT Park will start software-defined data center, which will house one of the first test environments for Health Ministry. This Data center will be one of the top ten Russian data centers. In addition, we plan to develop cloud services for small and medium businesses and provide backup for your data in the cloud.

Nitin Shah, Chairman & Managing director of Allied digital services said “Allied Digital have signed up an MoU with Kazan IT-park to provide consultancy , design, build and operate TIER III datacenter using the latest state of the art technology. This datacenter will be the backbone for providing cloud services to various SME’s at Kazan & around other regions in Russia. The datacenter will operate 24/7 with high level of redundancy to provide high uptime. It will have a Disaster Recovery (DR) back up site to provide high availability & business continuity. Allied digital Services with its vast experience and expertise will also build state of the art Network operations center (NOC) and Security Operations center (SOC) to monitor clients infrastructure, applications and securities”.

About Kazan IT- Park

In the Russian Federation, IT-park has become the first technopark to propel and develop IT entrepreneurs (established in 2009). The network of IT-park was built within the State program "High Technology Technoparks Creation in the RF" implemented by the Ministry of Communications of the Russian Federation. It shows the unique business platform for the ICT development in the Republic of Tatarstan. IT-park is located in the business center of Kazan.
